

NAGAMOUNIKA VARIKUNTLA

Aspiring Frontend Developer

+91 7331102982 nagamounika624@gmail.com | [LinkedIn](#) | [GitHub](#) | Ongole, Andhra Pradesh, India

OBJECTIVE

Aspiring Frontend Developer with strong knowledge of HTML, CSS, JavaScript, React.js, and MySQL, focused on building responsive web applications. Strong problem-solving abilities and continuous learning mindset support success in dynamic development environments. Ready to contribute programming skills to innovative IT projects.

EDUCATION

Bachelor of Technology (IT)

Vignan's Foundation for Science, Technology & Research University	CGPA- 7.92%
07/2023 - 05/2027	Guntur, Andhra Pradesh

Higher Secondary

Sri Chaitanya Junior College	CGP - 90.6%
06/2021 - 03/2023	Ongole, Andhra Pradesh

Secondary School

Apex High School	CGPA- 98%
03/2020 - 06/2021	Ongole, Andhra Pradesh

INTERNSHIP EXPERIENCE

Web Development Course

Learned how to build websites using HTML, CSS, and JavaScript. Gained skills in creating responsive and user-friendly web pages. Worked on projects involving front-end design and basic back-end concepts.

CERTIFICATES

Cambridge English - Preliminary (PET)

Generative AI

Covering basics of AI models like GPT, image generation, and prompt engineering. Learned how AI creates text, images, and other content using machine learning techniques

Software Testing (NPTEL)

Covers testing concepts like manual testing, automation basics, test cases, bug tracking, and validation techniques. This shows my understanding of how to check software quality and find errors

Online Communication in the Digital Age (NPTEL)

Focuses on effective communication using digital platforms, covering email writing, online etiquette, and professional communication.

Deep Learning - IIT Ropar (NPTEL)

CNNs, RNNs, attention mechanisms, and optimization techniques.

KEY ACHIEVEMENTS

National Cadet Corps (NCC)

Earned B Certificate with A Grade in the National Cadet Corps (NCC), demonstrating leadership and discipline

SKILLS

Programming Languages: Python & Basics in C

Web Development: HTML, CSS, JavaScript, JSX, React.js

Tools: GitHub, VS code

Databases: MYSQL, MongoDB

Soft Skills: Communication, Teamwork, Problem Solving, Team Collaboration, Time Management, Adaptability

Containerization Platform: Basics in Docker

Core Concepts: REST APIs, Data Structures, DBMS, Data Visualization, Frontend Development, OOP, Operating Systems, Machine Learning

ACADEMIC PROJECTS

Real Time College Fest & Concert Updates

- Sends instant notifications for schedules, changes, and important announcements
- Shows event details clearly like time, venue, and registration information
- Improved event participation awareness for 500+ students
- Displayed event information for 20+ events including schedules and registrations.
- Implemented real-time updates using Socket.IO with <1 second notification delay

Online Shopping System

[Link](#)

- Allows users to browse and buy products online easily.
- Provides secure payment and order tracking
- Shows product details, prices, and offers in one place.
- Helps users shop anytime without visiting physical stores.
- Developed an Online Shopping System handling 100+ product listings and improving user browsing efficiency by 40%.

Plagiarism Detection

[Link](#)

- Compared 50+ text entries for similarity detection
- Generates a similarity report with percentage score
- Helps ensure original and authentic content writing
- Built plagiarism detection system with 90% matching accuracy using smart text comparison algorithms
