Summary

To obtain a challenging position as a fresher in the IT industry where I can utilize my web development (HTML, CSS, JavaScript) gain real-world experience, and grow professionally while contributing to the success of the organization.

Education

2023 - 2027	Vignan's Foundation for Science, Technology & Research B.Tech CGPA - 7.78
2021 - 2023	Sri Chaitanya Junior College, Ongole Inter II Percentage - 90%
2020 - 2021	Apex High School, Ongole 10th Percentage - 98%

Certification

Web Development Course

- Learned how to build websites using HTML, CSS, and JavaScript.
- Gained skills in creating responsive and user-friendly web pages.
- Worked on projects involving front-end design and basic back-end concepts.

Software Testing (NPTEL)

- It covers testing concepts like manual testing, automation basics, test cases, bug tracking, and validation techniques.
- This shows my understanding of how to check software quality and find errors.

Generative AI

- covering basics of AI models like GPT, image generation, and prompt engineering.
- Learned how AI creates text, images, and other content using machine learning techniques.
- This shows my understanding of modern AI tools and their practical applications.

Skills

- Web Development : HTML
 - CSS
 - JavaScript
 - Tools : github
 - containerization platform : Basics in Docker
- Programming Languages : Basics in C and Python
 - Databases : MYSQL
 - Soft Skills : Communication
 - Teamwork
 - Problem-solving

Projects

Real Time College Fest & Concert Updates

- Provided live updates on event schedules, performances, and announcements during college fests and concerts.
- Shared important information quickly with attendees using social media and messaging apps.

Online Shopping System

🔗 [Project Link](#)

- Built a website where users can buy products online.
- Added features like user accounts, product search, and shopping cart.

Plagiarism Detection

🔗 [Project Link](#)

- Built a plagiarism detection tool that compares text documents and finds similarities.
- Used algorithms to check for copied content and generate a percentage score of originality.
- This project shows my skills in text processing, pattern matching, and logical thinking.

Achievements

NATIONAL CADET CORPS (NCC)

- B Certificate with A Grade
